£15.00 • G8-10083 • 5035135400673

**OVER THE RAINBOW** with  
**WHAT A WONDERFUL WORLD**  
and 8 other songs

**AVAILABLE FOR  
THE FIRST TIME**

In December 2000 Eva Cassidy's *Over The Rainbow* was broadcast for the first time on Top Of The Pops 2. The clip instantly became the most requested in the show's history and was broadcast again in February 2001. Three weeks later *SONGBIRD* climbed to the top of the UK album chart.

With *SONGBIRD* now over 5 times **PLATINUM**, two further **No.1** albums to her credit, both of which are **PLATINUM** and the rest of her catalogue **GOLD**, Hot is pleased to announce the release of Eva's first DVD collection, **EVA CASSIDY SINGS**.

The clips on the DVD were originally made for promotional purposes and features her now famous performance of *Over The Rainbow*. Five of the songs have never been broadcast on British TV before, including the lead track, a recently rescued take of *What A Wonderful World* which is, characteristically, right on the money.
